

## Hartland Gentle Dental Financial Policy

Hartland Gentle Dental accepts most traditional insurance plans. You will only be asked to pay the estimated part of your bill at the time of service that your insurance will not cover. We will submit your insurance claim to the insurance carrier you provide to us. If there are any charges, such as a deductible, which your insurance has passed on to you, we will inform you with a finalized statement.

We cannot guarantee what your insurance company will cover towards your individual services. We will estimate your portion based on information we gather from your specific insurance company and plan benefits. We can (and submit a pre-estimate to your insurance company before any major work (crowns, bridges or dentures) is started per your request. We suggest you consult your plan booklet for the most up to date information regarding your plan (your employer should provide you a copy).

Hartland Gentle Dental is dedicated to providing you with the highest quality of dentistry. Your health is the most important goal to us and we will strive to maximize your insurance benefits, and provide you with your ideal treatment.
